PSAT2 RW 1.1

Novelist Leon Forrest admired William Faulkner’s writing style. Forrest’s novel *Divine Days* contains a long passage in tribute to Faulkner that is a perfect _____ of Faulkner’s style: anyone familiar with Faulkner’s writing would see the resemblance.

Which choice completes the text with the most logical and precise word or phrase?

- A. forgetting
- B. rejection
- C. imitation
- D. opinion

ID: 7a327791 Answer

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of novelist Leon Forrest’s admiration of William Faulkner’s writing style. In this context, "imitation" means something that resembles or reproduces something else. The text states that Forrest admired Faulkner’s style and that anyone familiar with Faulkner’s style would be able to see the stylistic similarities between a particular passage in Forrest’s novel *Divine Days* and Faulkner’s writing, a fact that supports the idea that Forrest’s novel pays tribute to Faulkner by reproducing, or imitating, Faulkner’s style.

Choice A is incorrect because in this context, a "forgetting" would mean an instance in which something is overlooked or not remembered. The text emphasizes Forrest’s admiration for Faulkner’s style and the fact that Forrest’s writing in some instances closely resembles Faulkner’s stylistically. It therefore wouldn’t make sense to say that in trying to pay tribute to Faulkner’s style, Forrest failed to remember it. Choice B is incorrect because in this context, a "rejection" would mean a dismissal of something as unworthy. The text emphasizes Forrest’s admiration for Faulkner’s writing style, stating that parts of Forrest’s writings indicate efforts to copy that style. It wouldn’t make sense therefore to suggest that Forrest had rejected or dismissed Faulkner’s style as unworthy. Choice D is incorrect because in this context, an "opinion" would mean a view or judgment. Although the text focuses on Forrest’s admiration of Faulkner, which suggests that Forrest had formed a positive judgment of Faulkner’s style, the word opinion wouldn’t make sense in this sentence: the sentence doesn’t say that the passage from Forrest’s novel expresses his view of Faulkner’s style; rather, it suggests that stylistically, the passage closely resembles, or imitates, Faulkner’s writing.

PSAT2 RW 1.2

A unique dialect, or regional variety, of Spanish is spoken in Puerto Rico. It contains many words borrowed from the language of the Taínos, the Indigenous people of Puerto Rico. African languages also made important contributions to the Puerto Rican dialect. For example, the way certain vowel sounds are pronounced in it can be _____ to how they are pronounced in Yoruba, a West African language.

Which choice completes the text with the most logical and precise word or phrase?

- A. traced
- B. surrendered
- C. announced
- D. offered

ID: a7991da1 Answer

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of the origins of the unique dialect of Spanish spoken in Puerto Rico. In this context, "traced" means tracked back to. The text notes that the regional variety of Spanish spoken in Puerto Rico has its roots in the language of the Taínos and in the West African language of Yoruba. This context supports the idea that the way certain vowel sounds are pronounced in the Puerto Rican dialect can be traced back to Yoruba.

Choice B is incorrect because the text presents the statement about the relationship between vowel pronunciation in the Puerto Rican dialect of Spanish and in Yoruba as an example to support the claim that African languages have contributed to the Puerto Rican dialect. It therefore wouldn’t make sense to say that the pronunciation of certain vowel sounds in the Puerto Rican dialect can be "surrendered," or handed over on demand, to the pronunciation in Yoruba. Choice C is incorrect because the text gives no indication that the way certain vowel sounds are pronounced in the Puerto Rican dialect of Spanish has been "announced," or officially declared or proclaimed. According to the text, elements of the dialect have been inherited or borrowed from African languages, and the relationship between the pronunciation of certain vowels in the Puerto Rican dialect and in Yoruba is an example of this inheritance, suggesting that the pronunciation in the Puerto Rican dialect can be traced to Yoruba. Choice D is incorrect because the text presents the statement about the relationship between vowel pronunciation in the Puerto Rican dialect of Spanish and in Yoruba as an example to support the claim that African languages have contributed to the Puerto Rican dialect. It therefore wouldn’t make sense to say that the pronunciation of certain vowel sounds in the Puerto Rican dialect can be "offered," or presented as a gift, to the pronunciation in Yoruba.

Question Difficulty: Easy

Question ID fa014d2d

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: fa014d2d

PSAT2 RW 1.3

The invention in 1958 of the integrated circuit (or microchip) radically altered the semiconductor industry. In fact, some historians argue that it fundamentally _____ the industry by enabling it to take advantage of mass production methods for the first time.

Which choice completes the text with the most logical and precise word or phrase?

- A. overwhelmed
- B. bypassed
- C. obstructed
- D. transformed

ID: fa014d2d Answer

Correct Answer: D

Rationale

Choice D is the best answer because it most logically completes the text’s discussion of the invention of the integrated circuit. As used in this context, "transformed" means substantially changed in some way. The text states that the invention radically altered the semiconductor industry, with some historians claiming that it had a fundamental effect on the industry by allowing for mass production for the first time. This context conveys that the invention of the integrated circuit transformed the semiconductor industry.

Choice A is incorrect. Although the text indicates that the invention of the integrated circuit significantly affected ("radically altered") the semiconductor industry, it doesn’t indicate that the invention "overwhelmed" the industry, which in this context would mean that it overcame the industry such that the industry struggled or was defeated. Instead, the text conveys that the invention’s effect was positive, since it allowed the semiconductor industry to begin making use of mass production methods. Choice B is incorrect because it wouldn’t make sense in context to say that the invention of the integrated circuit "bypassed" the semiconductor industry, which would mean it intentionally avoided the industry. The text indicates that the invention directly affected the semiconductor industry, since it made it possible for the industry to begin engaging in mass production methods. Choice C is incorrect because the text doesn’t indicate that the invention of the integrated circuit "obstructed" the semiconductor industry, which would mean that it blocked or hindered the industry in some way. Instead, the text indicates that the invention’s effect was positive, since it made it possible for the semiconductor industry to begin engaging in mass production methods.

Question ID 3654202f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 3654202f

PSAT2 RW 1.4

Radar and sonar can detect objects or people through walls, but they are too costly for consumer use. Researchers Fadel Adib and Dina Katabi have shown, however, that there may be a comparatively _____ alternative: small changes to the Wi-Fi technology used in smartphones can give users a cheap way to count people or even identify their gestures through walls.

Which choice completes the text with the most logical and precise word or phrase?

- A. infrequent
- B. inexpensive
- C. unmistakable
- D. impractical

ID: 3654202f Answer

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of ways to detect people through walls. In this context, "inexpensive" means less costly or low in price. The passage describes two kinds of methods that can be used to "detect objects or people through walls": radar and sonar, and changes to the Wi-Fi technology used in smartphones. The word "comparatively" before the blank indicates that the best answer would be one that helps to describe a comparison between the two. Radar and sonar are described as "costly," while the method that uses Wi-Fi technology is described as "cheap"; therefore, it would be comparatively affordable, or inexpensive.

Choice A is incorrect because the text indicates that a small modification to the smartphones that many consumers already own would presumably result in consumers using that technology to detect objects or people through walls more regularly, or frequently; therefore, it would not be true that such technology would be comparatively infrequent, or uncommon. Choice C is incorrect because there is nothing in the text to indicate that either radar and sonar or changes to smartphone Wi-Fi technology are capable of being misunderstood or mistaken for something else; therefore, it would not make sense to describe changes to Wi-Fi smartphone technology as comparatively unmistakable, or indisputable. Choice D is incorrect because the text indicates that a small modification to the smartphones that many consumers already own and carry with them would be more functional or practical than radar and sonar, not more impractical, or unrealistic.

PSAT2 RW 1.5

The early British postal system required the cost of mail delivery to be paid upon receipt, a system which encouraged inventive strategies by the intended recipient to avoid payment. To improve this system, _____ were proposed in 1837, including the use of a postage stamp, a small receipt pasted to the mail indicating that delivery costs had been paid by the sender.

Which choice completes the text with the most logical and precise word or phrase?

- A. investigations
- B. expansions
- C. reforms
- D. possessions

ID: d8d33cc5 Answer

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text’s discussion of the early British postal system. In this context, "reforms" most nearly means attempts at improving something. The text indicates that the pay-upon-delivery postage method led to fee avoidance on the part of recipients. It then says that action was taken to improve the postal system, giving examples such as the move to having the sender pay and affixing stamps to indicate payment had been received. These represent revisions to the system intended to improve its functioning; therefore, "reforms" most logically completes the text.

Choice A is incorrect. In this context, "investigations" most nearly means attempts to understand something. And although it is plausible that an attempt to improve the postal system would involve investigations, nothing in the text provides a logical basis for understanding the example of changes like affixing stamps to letters as an investigation. Choice B is incorrect. In this context, "expansions" most nearly means additions to something. Although the text indicates that some new policies were adopted, nothing in the text suggests that the overall number of policies increased, which expansions would seem to entail. Choice D is incorrect. In this context, "possessions" most nearly means items of personal property or things that otherwise belong to, or are part of, something. The text provides no logical context for understanding changes like affixing stamps to letters as possessions.

Question Difficulty: Easy

Question ID 7d8224f9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 7d8224f9

PSAT2 RW 1.6

In 1154, Muhammad al-Idrisi completed a collection of maps of the lands known to medieval Arabic and European scholars. This collection was titled *Al-Kitāb al-Rujārī (The Book of Roger)*, after the Norman king Roger II who hired him to create it. To create the collection, al-Idrisi consulted Arabic and Greek maps and interviewed travelers about the lands they visited. He included these travelers’ stories alongside the map illustrations.

Which choice best states the main purpose of the text?

- A. To discuss the benefits of studying mapmaking
- B. To explain how travelers created maps
- C. To describe a collection of medieval maps and how it was created
- D. To compare medieval Arabic and Greek mapmaking techniques

ID: 7d8224f9 Answer

Correct Answer: C

Rationale

Choice C is the best answer because it most accurately states the main purpose of the text, which is to describe a collection of medieval maps and how it was created. The text begins by mentioning Muhammad al-Idrisi’s collection of maps of lands known to medieval Arabic and European scholars. It then states that the Norman king Roger II hired al-Idrisi to create the collection and details al-Idrisi’s methods of creation: consulting Arabic and Greek maps and interviewing travelers. In short, the text presents a collection of medieval maps and then goes on to describe how that collection came to be.

Choice A is incorrect because the text describes a collection of maps and the process of creating that collection but does not discuss the benefits of studying mapmaking in general. Choice B is incorrect because though the text mentions that al-Idrisi interviewed travelers, the text does not describe how those travelers created maps. Choice D is incorrect because though the text mentions that al-Idrisi consulted Arabic and Greek maps, the text does not offer a comparison of Arabic and Greek mapmaking techniques.

Question Difficulty: Medium

Question ID 2af2016f

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 2af2016f

PSAT2 RW 1.7

A study by Dr. Paul Hanel and colleagues concluded that people are more likely to behave politely when listening to ideas they disagree with if they think about values before they engage in a discussion. Study participants were assigned to one of two groups. The experimental group spent a few minutes writing about one of their personal values before they had a group discussion on a controversial topic. And the control group spent a few minutes writing about a drink (tea, milk, etc.) before their group discussion on that topic. Hanel and colleagues found that the experimental group’s discussion was more civil than the control group’s discussion was.

Which choice best describes the main purpose of the text?

- A. To describe a widely held belief and how a study’s results support that belief
- B. To argue that researchers were surprised by the results of a certain study
- C. To suggest ways to improve a certain study’s experimental design
- D. To explain a study’s conclusion and how a research team arrived at that conclusion

ID: 2af2016f Answer

Correct Answer: D

Rationale

Choice D is the best answer because it most accurately describes the main purpose of the text, which is to explain a study’s conclusion and how researchers involved in the study arrived at that conclusion. The text begins by summarizing the main conclusion of the study conducted by Paul Hanel and colleagues: when confronted with ideas they disagree with in discussions about controversial topics, people are more likely to respond politely if they think about their personal values before engaging in such discussions. The text then goes on to describe the design of Hanel and colleagues’ experiment. By comparing interactions between members of an experimental group (who had been prompted to write about their personal values beforehand) to those between members of a control group (who had been prompted to write about a beverage), the team found that people in the experimental group behaved more civilly, or politely, than people in the control group did during discussions about a controversial topic. This finding led to the conclusion described at the beginning of the text.

Choice A is incorrect. Although the text discusses the results of a study, it doesn’t provide any indication that the conclusion the study supported—that when facing disagreement, people behave more politely when they have thought about their values—is a belief that is widely held. Choice B is incorrect because the text doesn’t indicate that the researchers found the results of their study to be surprising, or contrary to what they expected. In fact, there’s no indication provided in the text about how the researchers felt about the study’s results or that the results should be considered surprising. Choice C is incorrect. Although the text discusses the experimental design of a study, it doesn’t suggest any improvements to that design; instead, it focuses on how the design enabled the researchers to draw a particular conclusion.

PSAT2 RW 1.8

Text 1

Mycoprotein is a fungal biomass that can be eaten as an alternative to meat. Studies of the environmental impact of its manufacture generally agree it is lower than that of beef and closer to that of chicken or pork. But the expense of producing mycoprotein restricts its availability to a few countries with postindustrial economies. Knowing that cost reductions would expand access to mycoprotein, biochemists are exploring solutions, such as a cheaper substrate to feed the mycoprotein as it grows.

Text 2

Cattle farming is a principal cause of global deforestation, and a study by Florian Humpenöder and his colleagues found that replacing 20% of beef consumption worldwide with consumption of mycoprotein would cut deforestation by half if accomplished over the next thirty years. However, this would likely involve only a small change in agricultural water consumption, since water once dedicated to raising cattle would be diverted to raising crops instead.

Based on the texts, how would the author of Text 1 most likely respond to the study findings mentioned in Text 2?

- By emphasizing that since agricultural water consumption would remain static in the event of replacing beef consumption with mycoprotein consumption, an effort must be made to substitute mycoprotein for chicken and pork in

A. diets as well
- By asserting that the development of a more inexpensive substrate for mycoprotein production would contribute to the

B. goal of decreasing worldwide deforestation over time
- By noting that most people would be more likely to use mycoprotein as a substitute for chicken or pork in their diets than

C. as a substitute for beef
- By pointing out that some countries are responsible for greater deforestation than others and thus, to have any

D. significant effect on the environment, will have to replace more than 20% of their beef consumption with mycoprotein

ID: 4b4ab04e Answer

Correct Answer: B

Rationale

Choice B is the best answer because it reflects how the author of Text 1 would most likely respond to the study findings described in Text 2. The author of Text 2 discusses a study by Florian Humpenöder and his colleagues that found that deforestation would be reduced by half over the next thirty years if 20% of the beef consumed worldwide were replaced with mycoprotein. The author of Text 1 points out that mycoprotein is not widely available because of its high production cost, but goes on to note that this problem could be addressed by the creation of a cheaper substrate to feed mycoprotein. This suggests that the author of Text 1 would assert that the development of a less expensive mycoprotein substrate would contribute to the reduction in deforestation described in the study findings discussed in Text 2: if reducing the cost of mycoprotein increases people's access to it, then mycoprotein may be able to replace beef in more people's diets, thereby reducing the deforestation associated with beef production.

Choice A is incorrect because the author of Text 1 indicates that the environmental impact of mycoprotein production is close to that of chicken or pork production, so there is no reason to think that the author would assert that replacing chicken or pork with mycoprotein would be environmentally beneficial: such a replacement would not lessen the total environmental impact of food manufacture. Additionally, the specific issue of agricultural water consumption is never mentioned in Text 1, so there is no evidence indicating what the author of Text 1 would say about that issue. Choice C is incorrect. Although Text 1 does compare the environmental effects of producing mycoprotein to those of producing chicken or pork, nothing in Text 1 suggests that the author believes that people are more likely to replace chicken or pork with mycoprotein than they are to replace beef with mycoprotein. Choice D is incorrect because Text 1 makes no mention of countries' varying contributions to deforestation, so there is no evidence that the author of Text 1 would respond to the finding described in Text 2 by saying that some countries will have to replace more than 20% of their beef consumption with mycoprotein.

PSAT2 RW 1.9

Archaeologists have discovered a runestone in Norway that may contain the earliest example of written words in Scandinavia. Carbon dating at the discovery site revealed that the stone was likely carved between 1 and 250 CE. Runologist Kristel Zilmer believes the stone will be helpful in learning more about the use of runic alphabets in early Iron Age Scandinavia.

Which choice best states the main topic of the text?

- A. Battles of the Iron Age
- B. A runestone found in Norway
- C. A new method for dating rock samples
- D. The research interests of Kristel Zilmer

ID: 8fb67890 Answer

Correct Answer: B

Rationale

Choice B is the best answer because it most accurately states the main topic of the text. The text begins by stating that archaeologists in Norway have discovered what may be the oldest known runestone (a stone with an inscription in the runic alphabets used in the region in ancient times). According to the text, the object was created between 1 and 250 CE. The text then mentions a researcher who comments on the runestone’s significance to the study of runic alphabets. Thus, the main focus throughout the text is a runestone found in Norway.

Choice A is incorrect because the text mentions the Iron Age only to indicate the era when the runestone was created and when runic alphabets were in use; there’s no discussion of battles during this era. Choice C is incorrect because the text mentions the carbon dating method just once and does so only to indicate the age of the runestone; moreover, the text doesn’t suggest that this method is new. Choice D is incorrect. Although the text indicates that Zilmer is a runologist, or a scholar of runestones, it does so in a single sentence, so Zilmer’s scholarly interests are therefore not a primary focus of the text.

PSAT2 RW 1.10

Microplastics are tiny pieces of plastic waste. Areas of the ocean with higher concentrations of microplastic particles also have smaller and fewer waves. A study by Yukun Sun and colleagues found that the concentration of microplastic particles cannot be the only reason for this reduced wave activity because the concentration of particles that would have the observed effect is much higher than that found in these areas of the ocean. However, they found that surfactants, chemicals often used to manufacture plastics, are released into the water from microplastics and have a much stronger wave-reducing effect.

According to the text, what did Sun and colleagues discover about surfactants?

- A. They have a much stronger effect on wave activity than microplastics alone do.
- B. They are mainly composed of water.
- C. They are helpful for removing microplastics from the ocean.
- D. They can be used to contain microplastics within certain areas of the ocean.

ID: e47d2524 Answer

Correct Answer: A

Rationale

Choice A is the best answer because it presents a statement about surfactants that is supported by the text. The text indicates that higher concentrations of microplastics have been associated with waves that are relatively small and few. According to the text, however, a study by Sun and colleagues found that concentrations of microplastic particles can't be the only reason for the reduced wave activity because a much higher concentration of particles is needed to produce that observed effect. Instead, the text indicates that Sun and colleagues found that surfactants are released from microplastics into the ocean and have a much stronger wave-reducing effect than microplastics alone do.

Choice B is incorrect because the text doesn't discuss what surfactants are made of. Instead, it indicates that surfactants are frequently used to manufacture microplastics and that Sun and colleagues discovered that surfactants are released from microplastics into the ocean. Choice C is incorrect because the text doesn't discuss how microplastics can be removed from the ocean. Instead, the text indicates that Sun and colleagues discovered that surfactants are released into the ocean from microplastics and have a much stronger wave-reducing effect than microplastics alone do. Choice D is incorrect because the text doesn't indicate that surfactants can be used to contain microplastics within certain areas of the ocean. Instead, the text indicates that Sun and colleagues discovered that surfactants are released from microplastics into the ocean and have a much stronger wave-reducing effect than microplastics alone do.

Question Difficulty: Medium

PSAT2 RW 1.11

Incorporated and Unincorporated Self-Employment Rates in Four Occupational Fields, 2015

Occupational field	Incorporated self-employment rate	Unincorporated self-employment rate
Construction and resource extraction	4.4%	14.8%
Installation, maintenance, and repair	2.7%	6.2%
Management, business, and financial services	8.9%	9.7%
Sales and related	5.8%	7.8%

Self-employed workers—individuals who are not employees of other individuals or businesses but instead earn their income as business owners, independent contractors, or freelance workers—make up an important part of the US labor force. In order to receive legal and tax benefits enjoyed by corporations, self-employed individuals may choose to incorporate their business. A 2015 survey of incorporated and unincorporated self-employment rates in four occupational fields showed that the highest incorporated self-employment rate occurred among people working in _____

Which choice most effectively uses data from the table to complete the text?

- A. sales and related occupations.
- B. installation, maintenance, and repair occupations.
- C. construction and resource extraction occupations.
- D. management, business, and financial services occupations.

ID: 0ec15b5a Answer

Correct Answer: D

Rationale

Choice D is the best answer because it most effectively uses data from the table to complete the text. The text discusses self-employed workers in the US, and the table shows the US incorporated and unincorporated self-employment rates in four occupational fields in 2015. According to the table, the incorporated self-employment rate was 8.9% for the management, business, and financial services occupational field, which is higher than the incorporated self-employment rate shown for any other occupational field.

Choice A is incorrect because according to the table, the incorporated self-employment rate was 5.8% for the sales and related occupational field, which is lower than the 8.9% for the management, business, and financial services occupational field. Choice B is incorrect because according to the table, the incorporated self-employment rate was 2.7% for the installation, maintenance, and repair occupational field, which is lower than the 8.9% for the management, business, and financial services occupational field. Choice C is incorrect because according to the table, the incorporated self-employment rate was 4.4% for the construction and resource extraction occupational field, which is lower than the 8.9% for the management, business, and financial services occupational field.

SAT	Reading and Writing	Information and Ideas	Command of Evidence	

ID: ed586475

PSAT2 RW 1.12

There Is Confusion is a 1924 novel by Jessie Redmon Fauset. In the novel, the narrator portrays the character Joanna as someone who admires ambition in other people to the exclusion of all other qualities: _____

Which quotation from *There Is Confusion* most effectively illustrates the claim?

- A. "Joanna was mightily interested in people who had a 'purpose' in life. Otherwise not at all."
- B. "Indeed from the very beginning Joanna showed her preference for her father."
- C. "Joanna was like her father not only so far as ambition was concerned but also in her willingness to work."
- D. "She had a good sense of logic, a strong power of concentration, and a remarkably retentive and visualizing memory."

ID: ed586475 Answer

Correct Answer: A

Rationale

Choice A is the best answer because it most effectively presents a quotation from *There Is Confusion* that illustrates the claim that the narrator portrays Joanna as admiring the quality of ambition, or the determination to achieve something, and no other qualities in other people. By describing Joanna as not being interested in people unless they have "a 'purpose' in life"—that is, a goal they are determined to achieve—in which case she is very interested in them, the quotation reveals that Joanna cares only about others' ambition.

Choice B is incorrect because this quotation indicates only that Joanna has a preference for her father, without giving a reason for that preference; therefore, it doesn't illustrate the claim that Joanna cares only about others' ambition. Choice C is incorrect because this quotation doesn't illustrate that Joanna greatly admires the quality of ambition in others; it refers to Joanna's similarity to her father "so far as ambition was concerned" but doesn't reveal how she (or her father) views that quality. Choice D is incorrect because this quotation describes qualities Joanna possesses—praising her logic, concentration, and memory—instead of Joanna's interest in other people's qualities.

PSAT2 RW 1.13

Jia Hu and colleagues hypothesized that workplace leaders who reflect on lessons learned from past mistakes are likely to exhibit more humility than leaders who don't engage in such reflection. To test this, the team placed 301 managers in one of three groups. Participants in two experimental groups were asked to reflect on a mistake, one group focusing on a mistake that resulted in learning and the other group focusing on a mistake that didn't result in learning. Participants in a control group were asked to reflect on their daily routine. All the participants then described how they would respond to a workplace scenario. After evaluating the responses for evidence of humility, the researchers concluded that their hypothesis was correct.

Which choice best describes data in the graph that support the researchers' conclusion?

- A. None of the three groups' average humility scores exceeded 3.5.
- B. The managers in the control group exhibited only slightly less humility on average than the managers in the two experimental groups did.
- C. The managers who reflected on a past mistake that resulted in learning exhibited more humility on average than the managers in the other two groups did.

D. All three groups exhibited less humility on average than the researchers expected.

ID: e99a38ec Answer

Correct Answer: C

Rationale

Choice C is the best answer because it describes data in the graph that support the researchers' conclusion that their hypothesis about workplace leaders and humility was correct. According to the text, Jia Hu and colleagues "hypothesized that workplace leaders who reflect on lessons learned from past mistakes are likely to exhibit more humility than leaders who don't engage in such reflection." The bar graph shows the humility scores for managers who participated in Jia Hu and colleagues' study. It shows average humility scores for managers who reflected on a past mistake that they learned from, managers who reflected on a past mistake that they didn't learn from, and managers who were in the control group that, according to the text, simply reflected on their daily routines. The graph shows that managers who reflected on a past mistake they learned from received an average humility score between 3.0 and 3.5. Both the control group and managers who reflected on a mistake they didn't learn from received a lower average humility score of between 2.5 and 3.0. Thus, the managers who reflected on a past mistake that resulted in learning exhibited more humility on average than the managers in the other two groups did. This supports the researchers' conclusion that their initial hypothesis that workplace leaders who reflect on past mistakes they learned from exercise greater humility was correct.

Choice A is incorrect. Although according to the graph it's true that none of the group's humility scores exceeded 3.5, this idea does not support the researchers' conclusion that their initial hypothesis was correct. The statement that none of the three groups' average humility scores exceeded 3.5 does not distinguish between those leaders who reflected on lessons learned from past mistakes and those who didn't, so it would not support Hu and colleagues' hypothesis that workplace leaders who reflect on past mistakes they learned from exercise greater humility. Choice B is incorrect. While the graph shows that managers in the control group did exhibit less humility than the experimental group of managers who reflected on a mistake they learned from, the graph also shows that the control group exhibited more (not less) humility than the experimental group that reflected on a mistake they didn't learn from. Furthermore, the idea that the managers in the control group exhibited only slightly less humility on average than the managers in the two experimental groups did would not support the researchers' conclusion that their initial hypothesis that workplace leaders who reflect on past mistakes they learned from exercise greater humility was correct. Choice D is incorrect because there is no indication in the graph that all three groups of participants exhibited less humility on average than the researchers expected. The graph and text don't cite any specific expectations that the researchers had with regard to the humility scores for each group.

If an animal has been extinct for a long time, how can scientists learn what color it was? One group of scientists came up with a possible answer. When the scientists examined the fossilized feather of an extinct bird, they found melanosomes in it. Melanosomes produce pigment, or grains of color, inside cells. Because melanosomes are shaped differently depending on which colors they produce, the scientists hypothesized that they could _____

Which choice most logically completes the text?

- A. show how melanosomes can be found in fossils belonging to animals from other extinct species.
- B. determine the colors of the bird based on the appearance of the melanosomes in the feather.
- C. explain why the melanosomes in the feather were so well preserved.
- D. identify the colors of extinct animals whose fossils lack melanosomes.

ID: eca09a92 Answer

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of a hypothesis by one group of scientists about how to determine the colors of a long-extinct animal. The text explains that the scientists found melanosomes in the fossilized feather of an extinct bird and that melanosomes are responsible for producing color inside cells. The text also explains that melanosomes have different shapes depending on the colors they produce. Given this information, it follows that the scientists hypothesized that they could determine the colors of the extinct bird by examining the shapes of the melanosomes in the feather.

Choice A is incorrect because the text never suggests that the scientists were seeking to show how melanosomes can be found in fossils belonging to animals from other extinct species. Rather, the text indicates that the scientists were seeking to identify an extinct bird’s colors, and the text strongly suggests that the scientists hypothesized that they could achieve their goal by examining the shapes of the melanosomes in the bird’s fossilized feather. Choice C is incorrect because the text never suggests that the scientists were seeking to explain why the melanosomes in the feather were so well preserved. Rather, the text indicates that the scientists were seeking to identify an extinct bird’s colors, and the text strongly suggests that the scientists hypothesized that they could achieve their goal by examining the shapes of the melanosomes in the bird’s fossilized feather. Choice D is incorrect because the text suggests only one method of identifying the colors of extinct animals: by examining the shapes of melanosomes found in fossils. The text doesn’t discuss other methods for learning the colors of extinct animals and therefore provides no support for the idea that the scientists could identify the colors of extinct animals whose fossils lack melanosomes.

PSAT2 RW 1.15

In 2022, Crystal Reeck and colleagues studied whether the decision-making modes that guide consumers influence their choice between nonenvironmentally friendly standard electricity plans and environmentally friendly green plans that cap electricity usage. Study participants who self-reported using either an Affect Mode or Role Mode—which prioritize choices that have a stronger positive emotional or social impact, respectively—were more likely to select a green plan. Conversely, participants using a Calculation Mode—which aims to minimize both financial cost and personal inconvenience—were more likely to select a standard plan, even when the green option was cheaper. This finding suggests that participants using a Calculation Mode _____

Which choice most logically completes the text?

- _____ were equally unlikely to factor the financial savings of the green plan into their decision-making as were participants
- A. using either the Affect or Role Modes.
- B. may have been less strongly motivated to appear socially responsible with their choice of plan than they realized.
- _____ may have determined that the green plan imposed additional burdens on them that were not sufficiently offset by the
- C. potential financial savings.
- _____ were less likely to believe that the green plan was truly cost-effective than were participants using either the Affect or
- D. Role Modes.

ID: 26f5c4ba Answer

Correct Answer: C

Rationale

Choice C is the best answer because it most logically completes the text's discussion of the influence of decision-making modes on consumers' choices of different electricity plans. The Affect Mode describes choices based on the decision-maker's preferred emotional outcome, the Role Mode describes choices based on the decision-maker's social motivations, and the Calculation Mode describes choices based on minimizing financial costs and maximizing the decision-maker's convenience. Thus, if those using a Calculation Mode disfavor the green plan, it would be due to some financial or convenience burden the green plan imposes that the other doesn't. The text indicates that the green plan had a lower financial cost but was nonetheless rejected by participants using the Calculation Mode. It therefore follows that the green plan likely imposed a convenience burden that outweighed potential financial savings for these participants.

Choice A is incorrect. According to the text, the Affect Mode involves the decision-maker's preferred emotional outcome, the Role Mode involves social motivations, and the Calculation Mode is oriented toward minimizing financial costs and maximizing the decision-maker's convenience. Thus, unlike the Affect or Role Modes, the Calculation Mode would almost certainly involve taking price differences into account. Choice B is incorrect. According to the text, the Affect Mode involves the decision-maker's preferred emotional outcome, the Role Mode involves social motivations, and the Calculation Mode is oriented toward minimizing financial costs and maximizing the decision-maker's convenience. Thus, there is no reason to think that participants using the Calculation Mode at any point took social responsibility into account, let alone think that they discovered a disparity between their expectations and reality. Choice D is incorrect. According to the text, the Affect Mode involves the decision-maker's preferred emotional outcome, the Role Mode involves social motivations, and the Calculation Mode is oriented toward minimizing financial costs and maximizing the decision-maker's convenience. Thus, the text doesn't indicate that cost-effectiveness is a factor for participants using the Affect or Role Modes, and there is no basis to compare their beliefs in the truthfulness of the green-plan description with those of the Calculation Mode users.

PSAT2 RW 1.16

To illustrate Albert Einstein’s special theory of relativity, picture two jugglers: one juggling on a steadily moving parade float, the other juggling while standing still on a sidewalk. The laws of physics are identical for both _____ motion relative to each other. But what, Einstein wondered, about the speed of light?

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. jugglers’, regardless of they’re
- B. jugglers, regardless of there
- C. juggler’s, regardless of their
- D. jugglers, regardless of their

ID: d4f173ec Answer

Correct Answer: D

Rationale

Choice D is the best answer. The convention being tested is the use of plural nouns and possessive determiners. The plural noun "jugglers" and the plural possessive determiner "their" correctly indicate that there are multiple jugglers whose motion is being discussed.

Choice A is incorrect because the context requires the plural noun "jugglers" and the plural possessive determiner "their," not the plural possessive noun "jugglers'" and the contraction "they're." Choice B is incorrect because the context requires the plural possessive determiner "their," not the word "there," which means "in that place." Choice C is incorrect because the context requires the plural noun "jugglers," not the singular possessive noun "juggler's."

PSAT2 RW 1.17

Tortoises can be found in many works of literature. For example, in Tom Stoppard’s 1993 play *Arcadia*, there is a tortoise that _____ by two names (Plautus and Lightning) and appears in both of the play’s parallel timelines. As a character, the tortoise symbolizes the connection between the past and present.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. goes
- B. will have gone
- C. went
- D. had gone

ID: 4f2ff5f2 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The convention being tested is the use of verbs to express tense in a sentence. In this choice, the present tense verb "goes" is consistent with the other present tense verbs ("appears" and "symbolizes") used to describe the tortoise in Stoppard’s play. Furthermore, it’s conventional to use the present tense when discussing a literary work.

Choice B is incorrect because the future perfect tense verb "will have gone" isn’t consistent with the other present tense verbs used to describe the tortoise in Stoppard’s play. Choice C is incorrect because the past tense verb "went" isn’t consistent with the other present tense verbs used to describe the tortoise in Stoppard’s play. Choice D is incorrect because the past perfect tense verb "had gone" isn’t consistent with the other present tense verbs used to describe the tortoise in Stoppard’s play.

PSAT2 RW 1.18

It can take time for proposed amendments to the US Constitution to become law. For example, the Twenty-Second Amendment, which limits the number of _____ can serve, was first proposed in 1947 but wasn't approved by the required three-fourths majority of state legislatures until 1951.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. terms presidents
- B. term's presidents
- C. term's president's
- D. terms president's

ID: 20ea68b7 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The convention being tested is the use of plural nouns. The plural nouns "terms" and "presidents" correctly indicate that the amendment involves multiple terms and applies to presidents in general.

Choice B is incorrect because the context requires the plural noun "terms," not the singular possessive noun "term's." Choice C is incorrect because the context requires the plural nouns "terms" and "presidents," not the singular possessive nouns "term's" and "president's." Choice D is incorrect because the context requires the plural noun "presidents," not the singular possessive noun "president's."

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Standard English Conventions	Boundaries	

ID: ace95f84

PSAT2 RW 1.19

By analyzing the level of radioactive decay within a fossil specimen, scientists can establish the age of that fossil with a high degree of precision. When radioactive elements aren't present, scientists turn to _____ analysis of Earth's sediment layers (strata)—to estimate how old a fossil is based on the age of the strata in which the fossil is found.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. stratigraphy—the
- B. stratigraphy (the
- C. stratigraphy: the
- D. stratigraphy, the

ID: ace95f84 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The convention being tested is the use of punctuation within a sentence. The dash after "stratigraphy" pairs with the dash after "(strata)" to separate the supplementary element "the analysis of Earth's sediment layers (strata)" from the rest of the sentence. This supplementary element functions to define the term "stratigraphy," and the pair of dashes indicates that this element could be removed without affecting the grammatical coherence of the sentence.

Choice B is incorrect because a parenthesis can't be paired with a dash in this way to separate the supplementary element from the rest of the sentence. Choice C is incorrect because a colon can't be paired with a dash in this way to separate the supplementary element from the rest of the sentence. Choice D is incorrect because a comma can't be paired with a dash in this way to separate the supplementary element from the rest of the sentence.

Question Difficulty: Medium

Question ID a5079e0d

PSAT2 RW 1.20

Horsepower is a unit of measurement used to determine how much power a vehicle produces. The measurement is based on how much and how quickly weight can be _____. One unit of mechanical horsepower is equivalent to the amount of power it takes to lift 550 pounds one foot off the ground in one second.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. moved, for example,
- B. moved,
- C. moved; for example,
- D. moved

ID: a5079e0d Answer

Correct Answer: C

Rationale

Choice C is the best answer. The convention being tested is the use of punctuation within a sentence. This choice uses a semicolon in a conventional way to join the first main clause ("The measurement...moved") and the second main clause ("for example...second").

Choice A is incorrect because it results in a comma splice. Without a coordinating conjunction, a comma can't be used in this way to join the two main clauses ("The measurement...moved" and "for example...second"). Choice B is incorrect because it results in a comma splice. Without a conjunction following it, a comma can't be used in this way to join the two main clauses ("The measurement...moved" and "one unit...second"). Choice D is incorrect because it results in a run-on sentence. The two main clauses ("The measurement...moved" and "one unit...second") are fused without punctuation and/or a conjunction.

Question Difficulty: Medium

Question ID 9eb43963

Assessment	Test	Domain	Skill	Difficulty

ID: 9eb43963

PSAT2 RW 1.21

Water in the North Atlantic Ocean is pushed eastward by powerful winds, but the rotation of Earth and interference from nearby landmasses together cause _____ to swirl into a massive, churning whirlpool—also called the North Atlantic Gyre—that spins clockwise.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. these
- B. those
- C. them
- D. it

ID: 9eb43963 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The convention being tested is pronoun-antecedent agreement. The singular pronoun "it" agrees in number with the singular antecedent "water" and clearly indicates that the water swirls into a whirlpool.

Choice A is incorrect. The plural pronoun "these" neither agrees in number with the singular antecedent "water" nor clearly indicates that the water—not another plural noun in the sentence, such as "landmasses" or "winds"—swirls into a whirlpool. Choice B is incorrect. The plural pronoun "those" neither agrees in number with the singular antecedent "water" nor clearly indicates that the water—not another plural noun in the sentence, such as "landmasses" or "winds"—swirls into a whirlpool. Choice C is incorrect. The plural pronoun "them" neither agrees in number with the singular antecedent "water" nor clearly indicates that the water—not another plural noun in the sentence, such as "landmasses" or "winds"—swirls into a whirlpool.

PSAT2 RW 1.22

In order to create the Global Positioning System (GPS), scientists had to develop an accurate mathematical model of Earth’s shape that accounted for various forces, such as tides. _____ it was mathematician Gladys West who wrote the computer program that could perform these necessary calculations.

Which choice completes the text with the most logical transition?

- A. Ultimately,
- B. In other words,
- C. Secondly,
- D. In addition,

ID: 37ec26e7 Answer

Correct Answer: A

Rationale

Choice A is the best answer. "Ultimately" logically signals that West’s completion of the computer program was the conclusion of the process described in the previous sentence, in which scientists working on GPS sought to develop a mathematical model of Earth.

Choice B is incorrect because "in other words" illogically signals that the information about West’s program is a restatement of the information about the scientists’ efforts to develop a mathematical model of Earth. Instead, West’s program was the conclusion of those efforts. Choice C is incorrect because "secondly" illogically signals that West’s completion of the computer program was merely the next step in the scientists’ efforts to develop a mathematical model of Earth. Instead, West’s program was the conclusion of those efforts. Choice D is incorrect because "in addition" illogically signals that West’s completion of the computer program was merely additional information related to the scientists’ work on GPS. Instead, West’s program was the conclusion of the scientists’ efforts to develop a mathematical model of Earth.

PSAT2 RW 1.23

Few New Yorkers have heard Thelma Pollard’s name. _____ many have seen her work in the famous Broadway musical *The Phantom of the Opera*. As the musical’s longtime makeup supervisor, Pollard put the iconic makeup on the face of the Phantom himself.

Which choice completes the text with the most logical transition?

- A. Similarly,
- B. Therefore,
- C. For example,
- D. However,

ID: 9fe7315b Answer

Correct Answer: D

Rationale

Choice D is the best answer. "However" logically signals that the claim in this sentence—that many New Yorkers have seen Pollard’s work in a famous Broadway musical—is true despite the previous information that few New Yorkers have heard Pollard’s name.

Choice A is incorrect because "similarly" illogically signals that the claim in this sentence is similar to the previous information that few New Yorkers have heard Pollard’s name. Instead, the claim that many New Yorkers have seen Pollard’s work is true despite the previous information. Choice B is incorrect because "therefore" illogically signals that the claim in this sentence is a result of the previous information that few New Yorkers have heard Pollard’s name. Instead, the claim that many New Yorkers have seen Pollard’s work is true despite the previous information. Choice C is incorrect because "for example" illogically signals that the claim in this sentence exemplifies the previous information that few New Yorkers have heard Pollard’s name. Instead, the claim that many New Yorkers have seen Pollard’s work is true despite the previous information.

Question Difficulty: Easy

Question ID 0839a4b9

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: 0839a4b9

PSAT2 RW 1.24

The Coastal Futures Conservatory in Virginia is known for creating aural representations of ecological data. One such effort combines underwater audio recorded in seagrass beds with data that track rising carbon levels in the seagrass. As carbon levels increase, the audio is correspondingly distorted; _____ listeners can “hear” the changes in the carbon levels.

Which choice completes the text with the most logical transition?

- A. furthermore,
- B. by comparison,
- C. for instance,
- D. thus,

ID: 0839a4b9 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Thus" logically signals that the information in this clause—that listeners can "hear" carbon levels increasing—is a result of the previous information about the audio distorting as carbon levels increase.

Choice A is incorrect because "furthermore" illogically signals that the information in this clause merely adds to the previous information about the audio distorting as carbon levels rise. Instead, the listeners’ ability to "hear" carbon levels increasing is a result of that distortion. Choice B is incorrect because "by comparison" illogically signals that the information in this clause is being compared to the information about the audio distorting as carbon levels rise. Instead, the listeners’ ability to "hear" carbon levels increasing is a result of that distortion. Choice C is incorrect because "for instance" illogically signals that the information in this clause is an example of how the audio distorts as carbon levels rise. Instead, the audio was distorted for the express purpose of representing ecological data; the listeners’ ability to "hear" carbon levels increasing is a direct, intended result of the distortion, not merely an example of it.

Question Difficulty: Medium

Question ID 878f835a

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: 878f835a

PSAT2 RW 1.25

While researching a topic, a student has taken the following notes:

- Some atoms contain an excess of neutrons. Often, these neutrons form a “skin” on the atom’s surface.
- An atom of lead-208 has a neutron skin.
- The thickness of its neutron skin is approximately 0.28 trillionths of a millimeter.

The student wants to emphasize the thickness of lead-208’s neutron skin. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. The neutron skin surrounding an atom of lead-208 measures about 0.28 trillionths of a millimeter.
- B. Atoms with excess neutrons will often acquire a neutron skin.
- C. An atom of lead-208, like some other atoms, is surrounded by a neutron skin.
- D. Neutrons surround the surface of an atom of lead-208.

ID: 878f835a Answer

Correct Answer: A

Rationale

Choice A is the best answer. The sentence emphasizes the thickness of lead-208’s neutron skin, noting that it is about 0.28 trillionths of a millimeter thick.

Choice B is incorrect. The sentence makes a generalization about atoms, stating that atoms with excess neutrons will often acquire a neutron skin; it doesn’t emphasize the thickness of lead-208’s neutron skin. Choice C is incorrect. The sentence states that lead-208 has a neutron skin; it doesn’t emphasize the thickness of that skin. Choice D is incorrect. The sentence indicates that lead-208 is surrounded by neutrons; it doesn’t emphasize the thickness of lead-208’s neutron skin.

Question Difficulty: Easy

Question ID 5a2a4b36

PSAT2 RW 1.26

While researching a topic, a student has taken the following notes:

Pauline Hopkins (1859-1930) was an African American writer. In her career, she created many genre-defining stories. Her serialized novel *Hagar’s Daughter* was published from 1901 to 1902 in *The Colored American Magazine*. It is considered the first African American mystery novel.

The student wants to introduce Pauline Hopkins to an audience unfamiliar with her career. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. Pauline Hopkins is the author of *Hagar’s Daughter*, a serialized novel published from 1901 to 1902.
- African American writer Pauline Hopkins created many genre-defining stories during her career, including the first African
- B. American mystery novel, *Hagar’s Daughter*.
- Published in *The Colored American Magazine* from 1901 to 1902, *Hagar’s Daughter* is a serialized novel by Pauline
- C. Hopkins.
- D. *Hagar’s Daughter* by Pauline Hopkins is considered the first African American mystery novel.

ID: 5a2a4b36 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence introduces Pauline Hopkins to an audience unfamiliar with her career, identifying her as a genre-defining African American writer and noting a career accomplishment.

Choice A is incorrect. The sentence emphasizes that Pauline Hopkins wrote a serialized novel but doesn’t introduce Hopkins to an audience unfamiliar with her career. Choice C is incorrect. The sentence introduces Hopkins’s novel; it doesn’t introduce Hopkins. Choice D is incorrect. The sentence explains that a novel written by Hopkins is considered the first African American mystery novel; it doesn’t introduce Hopkins to an audience unfamiliar with her career.

Question Difficulty: Easy

Question ID c92ea686

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	

ID: c92ea686

PSAT2 RW 1.27

While researching a topic, a student has taken the following notes:

- The Ramayana* is a Sanskrit epic poem from ancient India.
- In *The Ramayana*, the character Kaikeyi is often portrayed as a villain. *Kaikeyi* is a 2022 novel by Vaishnavi Patel.
- The novel is a retelling of the epic poem from Kaikeyi’s point of view. It often portrays Kaikeyi as heroic.

The student wants to emphasize whose point of view the novel is told from. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- A. From the point of view of *The Ramayana*, the character Kaikeyi is often a villain.
- B. Vaishnavi Patel often portrays the character as heroic.
- C. *Kaikeyi* is a retelling of *The Ramayana* from the character Kaikeyi’s point of view.
- D. *The Ramayana* is an epic poem that features the character Kaikeyi.

ID: c92ea686 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The sentence emphasizes whose point of view the novel *Kaikeyi* is told from: the character Kaikeyi’s.

Choice A is incorrect. While the sentence does discuss point of view, it focuses on that of the epic poem rather than the novel. Choice B is incorrect. While the sentence seems to be referring to Patel’s novel, it doesn’t establish whose point of view the novel is told from. Choice D is incorrect. The sentence discusses the character Kaikeyi in the context of the epic poem; it doesn’t discuss the novel’s point of view.

Question Difficulty: Medium
