ID: 5d48f889

PSAT2 RW 2.1

The following text is adapted from Mercedes de Acosta’s 1921 poem “Spring and You.”

Now, Love and April, and the gold of your hair, Are all mingled together Like the blending of an exotic dream plant
With the fragrant perfume of a strange, frail flower.

As used in the text, what does the word “mingled” most nearly mean?

- A. Identified
- B. Combined
- C. Remembered
- D. Celebrated

ID: 5d48f889 Answer

Correct Answer: B

Rationale

Choice B is the best answer because as used in the text, "mingled" most nearly means combined. In the text, the speaker refers to several concepts mingling together and then compares this to "the blending of" two other things (an exotic plant and the fragrance of a strange flower). This comparison conveys that the speaker views the concepts of love, April, and the gold of someone’s hair as being blended together, or combined.

Choice A is incorrect because "mingled" means combined, not identified. The speaker names several concepts (love, April, and the gold color of someone’s hair) and then moves to a comparison of their mingling together to "the blending of" a plant and the scent of a flower, conveying the idea that the speaker views the concepts as blended together, or combined. Choice C is incorrect. The text as a whole may refer to a memory, but the comparison of the mingling of several concepts (love, April, and the gold color of someone’s hair) to "the blending of" a plant and the scent of a flower conveys that the speaker views those concepts as actually blended together, or combined, and not simply remembered at the same time. Choice D is incorrect. The speaker refers to several concepts (love, April, and the gold color of someone’s hair) and then compares the mingling together of those concepts to "the blending of" a plant and the scent of a flower; rather than suggesting that the concepts are celebrated, this comparison conveys that the speaker views the concepts as blended together, or combined.

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Words in Context	

ID: 6286dd96

PSAT2 RW 2.2

The following text is adapted from Frances Hodgson Burnett’s 1905 novel *A Little Princess*. Sara is a young student at a school in London.

Sara not only could tell stories, but she adored telling them. When she sat or stood in the midst of a circle and began to invent wonderful things, her green eyes grew big and shining, her cheeks flushed, and, without knowing that she was doing it, she began to act and made what she told lovely or alarming by the raising or dropping of her voice.

As used in the text, what does the word “invent” most nearly mean?

- A. Mislead
- B. Disguise
- C. Create
- D. Discover

ID: 6286dd96 Answer

Correct Answer: C

Rationale

Choice C is the best answer because as used in the text, "invent" most nearly means create or make up. The text begins by stating that Sara likes to tell stories and thoroughly enjoys telling them. The rest of the text describes how she looks and acts when she invents, or creates, "wonderful things" in her stories ("what she told").

Choice A is incorrect. Although the text suggests that Sara makes up "wonderful things," nothing suggests that she does so to mislead, or intentionally deceive, others; there is no reason to assume that Sara’s listeners don’t know that she’s creating the stories she shares. Choice B is incorrect because nothing in the text suggests that Sara is disguising, or trying to cover up or conceal, "wonderful things" when she tells stories; rather, she is creating them and presenting them in ways that make them "lovely or alarming" for her listeners. Choice D is incorrect because nothing in the text suggests that Sara is discovering, or unexpectedly finding, "wonderful things" in the stories she loves to tell; rather, that she is making things up as she tells the stories.

PSAT2 RW 2.3

Shoppers can help keep money cycling within a community by making purchases at small local businesses instead of large retailers. Some cities are _____ programs to encourage this behavior, establishing reward points and other incentives for shopping at small businesses.

Which choice completes the text with the most logical and precise word or phrase?

- A. instituting
- B. occupying
- C. underestimating
- D. encountering

ID: 53542eb5 Answer

Correct Answer: A

Rationale

Choice A is the best answer because it most logically completes the text’s discussion of programs that encourage money to cycle within a community. In this context, "instituting" means initiating. The text indicates that making purchases at small local businesses can help keep money cycling within a community. The text goes on to state that some cities are establishing incentives to promote small business shopping. This context supports the idea that some cities are instituting programs to encourage this consumer behavior.

Choice B is incorrect because saying that some cities are "occupying," or forcibly holding possession or control of, programs that encourage shoppers to make purchases at small local businesses wouldn’t make sense in context. The text doesn’t discuss who controls these programs but instead indicates that some cities are establishing incentives that encourage shoppers to make purchases at small local businesses. Furthermore, it wouldn’t make sense to say that a city is occupying a program. Choice C is incorrect because nothing in the text suggests that cities are "underestimating," or failing to understand the value of, programs that encourage consumers to shop at small local businesses. The text indicates that some cities are establishing incentives to encourage small business shopping, which suggests that these cities understand the value of such programs. Choice D is incorrect because saying that some cities are "encountering," or coming into contact with, programs that encourage consumers to shop at small local businesses wouldn’t make sense in context. The text indicates that some cities are already establishing incentives to encourage shoppers to make purchases at small businesses. This context suggests that the cities are instituting the programs, not that they are encountering them.

ID: 01de46bb

PSAT2 RW 2.4

The Menominee and Anishinaabe peoples have been growing wild rice—known as *manoomin* in the Ojibwe language—in the Great Lakes region of North America for centuries, but climatic changes are causing lakes to get deeper, thereby threatening wild rice. These plants are extremely _____ to water depth during the “floating leaf” stage of development, and if the water is too deep, the buoyancy of the young wild-rice plants can literally uproot them from the lake bottom, destroying them.

Which choice completes the text with the most logical and precise word or phrase?

- A. immune
- B. sensitive
- C. limited
- D. receptive

ID: 01de46bb Answer

Correct Answer: B

Rationale

Choice B is the best answer because it most logically completes the text’s discussion of wild rice. As used in this context, "sensitive" means vulnerable or easily affected. The text indicates that climate change is causing the lakes to get deeper, which consequently threatens the wild rice that grows in the area. The text goes on to state that deep water can cause young wild-rice plants to uproot from the bottom of the lake. This context supports the idea that the plants are sensitive to water depth during early stages of development.

Choice A is incorrect because "immune" means protected or shielded, which wouldn’t make sense in this context. The text explains that deep water can cause young wild-rice plants to become uprooted and destroyed, indicating that these plants are harmed by deep water, not protected from it. Choice C is incorrect because "limited" means confined or restrained, which wouldn’t make sense in this context. The text explains that water depth can negatively affect young wild-rice plants but doesn’t suggest that water depth limits or restrains the plants. Choice D is incorrect because "receptive" means open or tolerant, which wouldn’t make sense in this context. The text doesn’t indicate that the wild-rice plants are open to or tolerant of an increase in water depth but rather the opposite: an increase in water depth can harm young wild-rice plants.

PSAT2 RW 2.5

Ordinary soap bubbles usually exist for a minute or less before popping due to either a rupture forced by gravity-induced drainage or the evaporation of the liquid from which the bubble is composed. But physicist Aymeric Roux and colleagues discovered ways to mitigate these factors, resulting in bubbles that can last for a year or more. For example, glycerol tends to adhere to water molecules, so a bubble with a shell that contains both water and glycerol is able to draw additional water molecules from the surrounding air and thereby compensate for evaporation.

Which choice best states the purpose of the underlined portion in the text as a whole?

- A. It describes the effects of a process devised by researchers that increases the longevity of an object discussed in the text.
- B. It details the circumstances that prompted the research discussed in the text.
- C. It presents a reason why the phenomenon discussed in the text that the researchers wanted to avoid will inevitably occur.
- D. It mentions a method discussed in the text that researchers intend to test in future experiments.

ID: eaea6f8f Answer

Correct Answer: A

Rationale

Choice A is the best answer because it describes how the underlined portion of the sentence functions in the text as a whole. The text begins by discussing ordinary soap bubbles, objects that usually exist for less than a minute before popping due to either evaporation or gravity-induced drainage. The text then goes on to mention work by researchers Aymeric Roux and colleagues, who have discovered how to increase the longevity of bubbles by altering their chemical composition. Finally, the underlined portion of the text describes how this process works: since the bubble contains both water and glycerol, it can draw water molecules from the surrounding air to replace those lost to evaporation. Therefore, the underlined portion of the sentence describes the effects of a process devised by researchers that increases the longevity of an object described in the text.

Choice B is incorrect because the circumstance that prompted the research is discussed in the first sentence of the text, not the underlined portion. Choice C is incorrect because the underlined portion of the text does not address why soap bubbles must eventually rupture. Rather, it explains how the longevity of soap bubbles can be extended. Choice D is incorrect because the underlined portion of the text does not mention any future experiments.

Question Difficulty: Easy

Question ID 422c5068

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Craft and Structure	Text Structure and Purpose	

ID: 422c5068

PSAT2 RW 2.6

Generally it takes Tule geese about four days to migrate south for the winter. From their summer breeding grounds in Cook Inlet, Alaska, the birds begin by flying over the Gulf of Alaska, keeping about 100 miles from the Canadian shore. They pause to rest on the Pacific Ocean, then fly toward Summer Lake, Oregon, before finally arriving at their winter destination of Sacramento Valley, California. In 2020, however, it took the geese over twice as long to make their way from Cook Inlet to Sacramento Valley. According to researchers, the reason was airborne pollutants.

Which choice best states the function of the underlined portion in the text as a whole?

- A. It illustrates a change in Tule geese’s usual flight behavior.
- B. It suggests an explanation for why Tule geese breed in Alaska.
- C. It describes part of the Tule geese’s typical winter migration journey.
- D. It compares Tule geese to other birds that migrate south for the winter.

ID: 422c5068 Answer

Correct Answer: C

Rationale

Choice C is the best answer because it best states how the underlined portion functions in the text as a whole. The first sentence states that Tule geese typically take four days to migrate south. Then in the next sentence, which contains the underlined portion, the text describes the first part of that journey, which begins with the geese flying over the Gulf of Alaska while keeping about 100 miles from the Canadian shore. The rest of the text details the remainder of the geese’s typical journey and then mentions circumstances in 2020 that resulted in the geese taking an unusually long time to complete it. Thus, the underlined portion describes part of the Tule geese’s typical winter migration journey.

Choice A is incorrect. Although the text concludes by stating that in 2020, Tule geese took twice as long to complete their typical migration, which suggests a change in their usual flight behavior, the underlined portion doesn’t discuss this. Instead, the underlined portion describes the first part of the Tule geese’s typical winter migration journey over the Gulf of Alaska. Choice B is incorrect. Although the sentence containing the underlined portion mentions that Tule geese breed in Alaska, the underlined portion doesn’t explain why the geese breed in that location. Rather, the text mentions Alaska to explain that it’s the starting point of the Tule geese’s typical winter migration. Choice D is incorrect because the underlined portion doesn’t discuss any other birds that migrate south for the winter. In fact, the text is only concerned with the migration of Tule geese.

PSAT2 RW 2.7

When fashion designer Lloyd Henri Kiva New opened his store in Scottsdale, Arizona, in 1945, he quickly became known for creating delicately crafted leather goods, like belts and hats. He was perhaps most renowned for his colorful handbags, which he made by hand using a long and painstaking process. As he gained more customers, New began using sewing machines and other tools to help him produce bags more efficiently, though he continued to handcraft the crucial details that made each bag unique.

Based on the text, what would have been the most likely consequence if New had not begun using sewing machines?

- A. He would have been unable to ensure that each bag included unique, handcrafted details.
- B. He would have struggled to meet the increasing demand for his bags.
- C. He would have had to individually design each bag he produced.
- D. He would not have been able to generate as much interest in his bags.

ID: cf956802 Answer

Correct Answer: B

Rationale

Choice B is the best answer because it presents the most likely consequence if New had not begun using sewing machines. The text states that New gained new customers and that sewing machines allowed him to make bags more efficiently, or in less time than he could when sewing by hand. It’s reasonable to conclude that if New hadn’t reduced the time it took to make each bag by starting to use sewing machines, it would have been hard for him to keep up with the increased demand.

Choice A is incorrect because the text indicates that New added unique, handcrafted details to his bags before he started using sewing machines and continued to do so after he started using them. Choice C is incorrect because the text doesn’t suggest that individually designing each bag would have been a consequence of not using sewing machines, since New was already designing unique details for each bag before he started using sewing machines and continued to do so after he started using them. Choice D is incorrect because the text indicates that people were already interested in New’s bags before he started using sewing machines. Rather than allowing New to generate more interest in his bags, sewing machines helped New keep up with the interest that had already grown.

Question Difficulty: Easy

Question ID 82d2436a

ID: 82d2436a

PSAT2 RW 2.8

The following text is from Laila Lalami’s 2019 novel *The Other Americans*. The narrator is a member of her middle school’s jazz band.

One day the jazz band was invited to perform at the Summer Festival in Palm Springs. Walking across the stage to the piano, I did what my teacher had advised. Pretend you’re only playing for one person. That way you won’t be so nervous. I glanced at my father, who sat in the front row, leaning his head just so, waiting. Then I closed my eyes, and began to play.

©2019 by Laila Lalami

According to the text, what does the narrator do as she walks across the stage?

- A. She thinks about the differences between playing the piano alone and playing in a band.
- B. She feels excitement about playing in a music festival for the first time.
- C. She remembers how hard she has practiced for the performance.
- D. She follows her teacher’s advice about managing her nervousness.

ID: 82d2436a Answer

Correct Answer: D

Rationale

Choice D is the best answer because it presents a statement about what the narrator is doing that is directly supported by the text. According to the text, as the narrator walks across the stage to her piano, she recalls her teacher’s advice to pretend that she is playing for only one person. The text indicates that this advice was intended to help manage any nerves related to performing. Moreover, the text implies that the narrator follows this advice by deciding to focus on her father sitting in the audience. Thus, the text supports the idea that as she walks across the stage, the narrator follows her teacher’s advice about managing her nervousness.

Choice A is incorrect because the text doesn’t indicate that the narrator is thinking about how playing the piano alone is different from playing the piano in a band. Rather, the narrator thinks about her teacher’s advice to pretend that she is playing the piano for only one person to help ease her nervousness about performing. Choice B is incorrect because the text provides no indication that this is the first music festival that the narrator has performed in. Furthermore, the text indicates that the narrator is nervous, not excited, to play the piano at the festival. Choice C is incorrect because the text doesn’t suggest that the narrator is remembering how hard she practiced for the performance. Rather, she is thinking about what her teacher told her to do to help ease her nerves about playing the piano in front of an audience.

ID: 2287b040

PSAT2 RW 2.9

In the 1960s, Chavela Vargas became an unlikely star in ranchera, a style of traditional Mexican music. Most ranchera singers had clear, polished voices and performed with a full band. But Vargas accompanied her raspy voice with just her guitar. Dressed in men’s trousers and a poncho, she would perform classic songs that had been written from a male point of view and were usually sung by men. She also altered those songs by performing them much more slowly than other ranchera singers did. The slower tempo allowed her to express the emotional quality of the lyrics more fully.

According to the text, what is one way that Vargas differed from other ranchera singers?

- A. She possessed a voice that was clear and polished.
- B. She avoided singing songs written from a male point of view.
- C. She disliked performing classic songs.
- D. She altered classic songs by slowing them down.

ID: 2287b040 Answer

Correct Answer: D

Rationale

Choice D is the best answer because it accurately describes an aspect of Chavela Vargas that the text indicates is unusual among ranchera artists. According to the text, Vargas differed from other ranchera singers by slowing the tempo of classic songs, which allowed her to express the emotional quality of the lyrics more fully.

Choice A is incorrect because the text states that Vargas possessed an unusually raspy voice for a ranchera singer, not a clear and polished voice. Choice B is incorrect because the text indicates that Vargas was known to perform songs written from a male point of view, not that she avoided such songs. Choice C is incorrect because nothing in the text suggests that Vargas disliked performing classic songs. Rather, it suggests that she found innovative ways of performing them to emphasize their emotional content, which seems to suggest an affinity for such songs, not dislike.

Question Difficulty: Easy

Question ID 72c7dafd

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Information and Ideas	Command of Evidence	

ID: 72c7dafd

PSAT2 RW 2.10

Happy House is a 1920 novel by Jane Abbott. The narrator presents a young woman as being unimpressed with the house she is visiting: _____

Which quotation from *Happy House* most effectively illustrates the claim?

- A. "Her first feeling was of disappointment; in the square lines of the house there was little claim to beauty."
- B. "Someone had opened one of the blinds so here there was more light."
- C. "The door, built squarely in the middle of the house, opened almost directly upon a stone-flagged path that led in a straight line to the road."
- D. "She tip-toed through the hall and opened the door on the right."

ID: 72c7dafd Answer

Correct Answer: A

Rationale

Choice A is the best answer because it most effectively uses a quotation from *Happy House* to illustrate the claim that the young woman is unimpressed with the house she is visiting. In the quotation, it says the young woman's "first feeling was of disappointment" and that "there was little claim to beauty" when referring to the house. This disappointment and the overall lack of beauty in the house suggest that the young woman isn't impressed by the house she is visiting.

Choice B is incorrect because the quotation doesn't describe what the young woman thinks about the house. Instead, it indicates that there is more light because window blinds have been opened. Choice C is incorrect because the quotation describes a door and a path outside of the house but doesn't include anything to indicate the young woman's feelings about the house. Choice D is incorrect because the quotation states what the young woman did in the house ("tip-toed through the hall" and "opened the door"), but it doesn't show what she thinks about it.

PSAT2 RW 2.11

Average Prices Received by US Growers for Citrus Fruits, 2020–2021 (dollars per box)

Fruit	June 2020	June 2021	July 2020	July 2021
Grapefruits	\$13.80	\$23.72	\$16.13	\$22.98
Oranges	\$16.15	\$11.09	\$15.53	\$13.79
Lemons	\$19.50	\$28.94	\$21.01	\$31.78

An employee of a citrus grower in the United States is analyzing the prices of several varieties of fruit over the course of a growing season. The employee wishes to know how much a grower could have expected to receive on average for a box of lemons in July 2021. Consulting the table, the employee finds that this amount is _____

Which choice most effectively uses data from the table to complete the statement?

- A. \$31.78.
- B. \$23.72.
- C. \$22.98.
- D. \$28.94.

ID: 81498c6a Answer

Correct Answer: A

Rationale

Choice A is the best answer because it most effectively uses data from the table to complete the text’s discussion of how much a grower could have expected to receive on average for a box of lemons in July 2021. The table lists the average prices received by US citrus growers in dollars per box for grapefruits, oranges, and lemons in June 2020, June 2021, July 2020, and July 2021. According to the table, the average price of a box of lemons in July 2021 was \$31.78.

Choice B is incorrect because the text indicates that the employee of a citrus grower wishes to know the average price for a box of lemons in July 2021. According to the table, \$23.72 was the average price for a box of grapefruits in June 2021, not for a box of lemons in July 2021. Choice C is incorrect because the text indicates that the employee of a citrus grower wishes to know the average price for a box of lemons in July 2021. According to the table, \$22.98 was the average price for a box of grapefruits in July 2021, not for a box of lemons in July 2021. Choice D is incorrect because the text indicates that the employee of a citrus grower wishes to know the average price for a box of lemons in July 2021. According to the table, \$28.94 was the average price for a box of lemons in June 2021, not in July 2021.

SAT	Reading and Writing	Information and Ideas	Command of Evidence	

ID: 3091f805

PSAT2 RW 2.12

Ochre sea stars live in tidal pools along the shoreline of the Pacific Ocean. At night, they move to higher shore levels in search of prey. But scientists Corey Garza and Carlos Robles noticed that ochre sea stars stayed at lower levels at night after heavy rains. Garza and Robles hypothesized that a layer of fresh water formed by rainfall was a barrier to the sea stars. To test their hypothesis, the scientists did an experiment. They placed some sea stars in a climbable tank of seawater and other sea stars in a similar tank of seawater with a layer of fresh water on top. Then, the scientists watched the sea stars’ behavior at night.

Which finding from the experiment, if true, would most directly support Garza and Robles’s hypothesis?

- None of the sea stars climbed to the tops of the tanks, but sea stars in the tank with only seawater moved around the

A. bottom of the tank more than sea stars in the other tank did.
- Sea stars in the tank with only seawater climbed to the top of the tank, but sea stars in the other tank stopped climbing

B. just below the layer of fresh water.
- Both groups of sea stars climbed to the tops of the tanks, but sea stars in the tank with only seawater climbed more

C. slowly than sea stars in the other tank did.
- Sea stars in the tank with only seawater mostly stayed near the bottom of the tank, but sea stars in the other tank

D. climbed into the layer of fresh water.

ID: 3091f805 Answer

Correct Answer: B

Rationale

Choice B is the best answer because it presents a finding that, if true, would support Garza and Robles’s hypothesis that a layer of fresh water forms a barrier to ochre sea stars. The text explains that the sea stars tend to move to higher shore levels at night in search of prey, but after a heavy rain, the sea stars stay at lower shore levels. Garza and Robles hypothesize that rainfall results in a layer of fresh water that the sea stars don’t cross. To determine whether fresh water forms a barrier to sea stars, Garza and Robles observed how sea stars behaved in a tank of only seawater and in a tank of seawater with a layer of fresh water on top. If the sea stars climbed to the top of the tank with only seawater but stopped climbing just below the layer of fresh water in the other tank, that would suggest that fresh water does indeed serve as a barrier to the sea stars, thereby supporting Garza and Robles’s hypothesis.

Choice A is incorrect because finding that sea stars in the tank with only seawater moved around the bottom of the tank more than sea stars in the other tank did but that none of the stars in either tank climbed to the top would be irrelevant to Garza and Robles’s hypothesis. Such a finding would reveal nothing about whether fresh water serves as a barrier to sea stars. Choice C is incorrect because finding that sea stars climbed to the top of both tanks would weaken, not support, Garza and Robles’s hypothesis, since it would indicate that the layer of fresh water wasn’t a barrier to the sea stars. Choice D is incorrect because finding that sea stars in the tank with only seawater mostly stayed near the bottom of the tank but sea stars in the other tank climbed into the layer of fresh water wouldn’t support Garza and Robles’s hypothesis. Instead, such a finding would suggest that the layer of fresh water wasn’t a barrier to the sea stars, thereby weakening Garza and Robles’s hypothesis.

PSAT2 RW 2.13

A main goal of the Association for the Advancement of Creative Musicians (AACM), an arts organization founded in 1965, is to advance new works by Black musicians. The AACM achieves this goal in part by focusing on young artists. By having established musicians and composers serve as mentors, the AACM gives young artists the benefits of expert technical training and creative guidance. Numerous organizations offer similar kinds of support to new generations of painters, writers, and other artists, suggesting that _____

Which choice most logically completes the text?

- A. artists of all ages benefit more from technical training than from creative guidance.
- B. many arts organizations recognize the importance of providing opportunities for young artists to learn from experienced mentors.
- C. most established artists could become even better artists by serving as mentors.
- D. finding a mentor is more important for musicians than it is for painters, writers, and other types of artists.

ID: 93cad661 Answer

Correct Answer: B

Rationale

Choice B is the best answer because it presents the conclusion that most logically follows from the text’s discussion of the relationship between the AACM’s use of mentors to support young Black musicians and similar support that other organizations offer their young artists. According to the text, in service of AACM’s goal to support new works by Black musicians, AACM mentors provide beneficial training and guidance to young artists. The text goes on to say that many other art organizations support new artists in similar ways, suggesting that these organizations recognize the importance of providing opportunities for young artists to learn from mentors who are established in their field.

Choice A is incorrect because the text gives no indication that technical training is more beneficial than creative guidance. The text states that AACM mentors offer both technical training and creative guidance to young artists and that other arts organizations offer similar kinds of support; however, nothing in the text suggests that young artists, or artists of any age, benefit more from technical training. Choice C is incorrect because the text is mainly concerned with the fact that established artists are mentoring young artists through AACM and other arts organizations. The text states that young musicians benefit from AACM mentors but does not address what mentors gain from the relationship, so there is no reason to conclude that most established artists could improve as artists by serving as mentors. Choice D is incorrect. Although the text indicates that mentors are beneficial to young musicians and that young people pursuing other kinds of art (including painting and writing) can also find mentors through arts organizations, the text gives no indication that mentors are more important for musicians than for other types of artists.

PSAT2 RW 2.14

Silicon-based photovoltaic cells account for 95% of the cells used in solar panels worldwide despite converting an average of only 18–22% of the sunlight that reaches them. In a study addressing this relative inefficiency, a team led by Laura Miranda-Pérez demonstrated that the addition of a thin layer of the mineral perovskite—which captures the blue range of light in the solar spectrum, whereas silicon captures the red range—allows the cells to convert 29.5% or more of the Sun’s energy into usable electricity. Cells made with only perovskite, however, are no more efficient than silicon-based ones. It’s reasonable to conclude, then, that _____

Which choice most logically completes the text?

- photovoltaic cells with both silicon and perovskite are more efficient because they make use of more of the solar
- A. spectrum.
- B. photovoltaic cells with only perovskite and no silicon would likely convert more than 29.5% of the Sun’s energy.
- C. solar power will remain elusive until photovoltaic cells are replaced with a more practical technology.
- D. researchers need to evaluate whether other minerals like perovskite are as effective as perovskite seems to be.

ID: f495b554 Answer

Correct Answer: A

Rationale

Choice A is the best answer because it presents the conclusion that most logically completes the text's discussion of the efficiency of various photovoltaic cells. The text indicates that Miranda-Pérez and her team found that adding a layer of perovskite to silicon-based cells increased the percentage of sunlight converted to usable electricity relative to the percentage converted to electricity by silicon-based cells. Using cells with only perovskite and no silicon, however, resulted in no improvement in efficiency over silicon-based cells. The text also states that perovskite captures light in the blue range of the solar spectrum and silicon captures light in the red range of the spectrum. If perovskite and silicon capture different parts of the solar spectrum and the combination of perovskite and silicon results in greater efficiency than the use of either perovskite or silicon alone does, then it is reasonable to infer that the improved efficiency of perovskite-silicon cells could be attributable to their making use of more of the solar spectrum than perovskite-based or silicon-based cells do.

Choice B is incorrect because it is directly contradicted by the text, which says that silicon-based cells convert 18%–22% of the sunlight that reaches them to electricity and that cells with only perovskite are no more efficient than silicon-based cells are. Perovskite-only cells thus must convert 22% or less—not more than 29.5%—of the sunlight that reaches them to electricity. Choice C is incorrect because the text focuses on a possible improvement to photovoltaic cells and makes no mention of any alternatives to those cells, so there is no reason to conclude that photovoltaic cells must be replaced with some other technology. Additionally, the text presents solar power as something that currently exists, so it wouldn't make sense to conclude that solar power will remain elusive. Choice D is incorrect because nothing in the text suggests that there is a need to evaluate the effectiveness of other minerals than perovskite. In fact, the text gives no indication that it is even possible to use other minerals than silicon and perovskite in photovoltaic cells. Instead, the text is focused on the effect of combining perovskite and silicon and the different parts of the solar spectrum that perovskite and silicon capture.

PSAT2 RW 2.15

In 1953, a fellow performer tripped on legendary jazz musician Dizzy Gillespie’s trumpet, bending its bell upward. When Gillespie tested the damaged instrument, he realized that he _____ sound of a bent bell over that of a straight one.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. preferred; the
- B. preferred the
- C. preferred, the
- D. preferred. The

ID: 64a40675 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The convention being tested is punctuation use between a verb and its object. No punctuation is needed between the verb "preferred" and its object "the sound of a bent bell over that of a straight one." The object helps complete the idea of the verb—in this case, it explains what type of sound Gillespie preferred—and any punctuation between the two results in an ungrammatical sentence.

Choice A is incorrect because no punctuation is needed between the verb and its object. Choice C is incorrect because no punctuation is needed between the verb and its object. Choice D is incorrect because no punctuation is needed between the verb and its object.

PSAT2 RW 2.16

From 1912 to 1951, Charlotta Bass owned and operated the newspaper *The California Eagle*. While it was under Bass’s leadership, *The Eagle* _____ one of the US’s most influential Black-owned newspapers.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. will become
- B. became
- C. is becoming
- D. to become

ID: cf08e2fd Answer

Correct Answer: B

Rationale

Choice B is the best answer. The conventions being tested are the use of verbs to express tense and the use of verb forms within a sentence. In this choice, the past tense verb "became" is consistent with the other past tense verbs ("owned," "operated," and "was") used to indicate that, at a period of time in the past, Bass’s leadership resulted in her newspaper becoming one of the most influential Black-owned newspapers in the US. In addition, "became" supplies the main clause with a finite (tensed) verb, which is required to perform the action of the subject (in this case, "*The Eagle*").

Choice A is incorrect because the future tense verb "will become" isn’t consistent with the other past tense verbs used to discuss Bass and her newspaper. Choice C is incorrect because the present progressive verb "is becoming" isn’t consistent with the other past tense verbs used to discuss Bass and her newspaper. Choice D is incorrect because it results in an ungrammatical sentence. The nonfinite to-infinitive "to become" doesn’t supply the main clause with a finite verb.

PSAT2 RW 2.17

What is the correct pronunciation of Kiribati? In the Gilbertese language spoken by residents of the island nation, the letter combination -ti makes the -s sound; as a result, the country’s name _____ pronounced “Kiribas.”

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. are
- B. have been
- C. are being
- D. is

ID: e62241b7 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The convention being tested is subject-verb agreement. The singular verb "is" agrees in number with the singular subject "the country’s name."

Choice A is incorrect because the plural verb "are" doesn’t agree in number with the singular subject "the country’s name." Choice B is incorrect because the plural verb "have been" doesn’t agree in number with the singular subject "the country’s name." Choice C is incorrect because the plural verb "are being" doesn’t agree in number with the singular subject "the country’s name."

Light of Truth is a bronze and marble sculpture by artist Richard Hunt. It honors civil rights icon Ida B. Wells. The sculpture _____ in a tree-lined plaza in Chicago, just a few blocks from where Wells lived.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. are standing
- B. have been standing
- C. stands
- D. were standing

ID: bce9910f Answer

Correct Answer: C

Rationale

Choice C is the best answer. The convention being tested is subject-verb agreement. The singular verb "stands" agrees in number with the singular subject "sculpture."

Choice A is incorrect because the plural verb "are standing" doesn't agree in number with the singular subject "sculpture." Choice B is incorrect because the plural verb "have been standing" doesn't agree in number with the singular subject "sculpture." Choice D is incorrect because the plural verb "were standing" doesn't agree in number with the singular subject "sculpture."

PSAT2 RW 2.19

The short story “Rogue Enchantments” by Isabel Ibañez appears in *Reclaim the _____* anthology of fantasy and science fiction written by authors of Latin American descent.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. *Stars*. An
- B. *Stars*, while an
- C. *Stars* an
- D. *Stars*, an

ID: 486f03da Answer

Correct Answer: D

Rationale

Choice D is the best answer. The convention being tested is the use of punctuation within a sentence. This choice correctly uses a comma to mark the boundary between the main clause ("The short...*Stars*") and the supplementary element ("an anthology...descent") that provides additional information about what *Reclaim the Stars* is.

Choice A is incorrect because it results in a rhetorically unacceptable sentence fragment beginning with "an anthology." Choice B is incorrect. Joining the main clause and the following supplementary element with the conjunction "while" results in a confusing and ungrammatical sentence. Choice C is incorrect because it fails to mark the boundary between the main clause and the supplementary element with appropriate punctuation.

PSAT2 RW 2.20

Novelist Jane Austen greatly admired the work of Fanny Burney, a popular English author. In fact, scholars believe that a passage from the last chapter of *Cecilia*, a 1782 novel by Burney, likely inspired the title of one of _____ *Pride and Prejudice*.

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. Austen’s most famous novels,
- B. Austens’ most famous novels’,
- C. Austens most famous novels,
- D. Austen’s most famous novel’s,

ID: 6bc907c9 Answer

Correct Answer: A

Rationale

Choice A is the best answer. The convention being tested is the use of plural and possessive nouns. The singular possessive proper noun "Austen’s" and the plural noun "novels" correctly indicates that Austen wrote multiple novels that were famous.

Choice B is incorrect because the context requires the singular possessive proper noun "Austen’s" and the plural noun "novels," not the plural possessive nouns "Austens'" and "novels'." Choice C is incorrect because the context requires the singular possessive proper noun "Austen’s," not the plural proper noun "Austens." Choice D is incorrect because the context requires the plural noun "novels," not the singular possessive noun "novel’s."

PSAT2 RW 2.21

Roughly 300 nights a year, when the cold air descending from the Andes Mountains meets the warm air rising from Venezuela’s coastal Lake Maracaibo, the result is a spectacular lightning storm, its strikes so bright, so localized, and so _____ that it has become known as “Maracaibo’s Lighthouse.”

Which choice completes the text so that it conforms to the conventions of Standard English?

- A. dependable:
- B. dependable;
- C. dependable
- D. dependable,

ID: 13fcf575 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The convention being tested is the punctuation of an integrated relative clause. No punctuation is needed before the relative clause beginning with "that" because the content of the relative clause ("that...Lighthouse") is integral to the meaning of the coordinated adjectival phrase ("so bright, so localized, and so dependable") that it modifies.

Choice A is incorrect because no punctuation is needed between the coordinated adjectival phrase ("so bright...dependable") and the integrated relative clause that modifies it. Choice B is incorrect because no punctuation is needed between the coordinated adjectival phrase ("so bright...dependable") and the integrated relative clause that modifies it. Choice D is incorrect because no punctuation is needed between the coordinated adjectival phrase ("so bright...dependable") and the integrated relative clause that modifies it.

PSAT2 RW 2.22

Paleontologists once thought that early apes lived in tropical forests, but recent research suggests that they may have actually lived in savannas. Tropical forests are humid and have many trees spaced close together. _____ savannas are drier, and their trees are spaced further apart.

Which choice completes the text with the most logical transition?

- A. For instance,
- B. In comparison,
- C. Firstly,
- D. In conclusion,

ID: 6a5939c2 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "In comparison" logically signals that the description of savannas in this sentence—that they are drier and their trees are spaced further apart—forms a comparison with the description of tropical forests in the previous sentence.

Choice A is incorrect because "for instance" illogically signals that the description of savannas in this sentence exemplifies the description of tropical forests in the previous sentence. Instead, this description forms a comparison with the description of tropical forests. Choice C is incorrect because "firstly" illogically signals that the description of savannas in this sentence indicates the first in a series of things. Instead, this description forms a comparison with the description of tropical forests in the previous sentence. Choice D is incorrect because "in conclusion" illogically signals that the description of savannas in this sentence concludes or summarizes information in the previous sentences. Instead, this description forms a comparison with the description of tropical forests in the previous sentence.

When sculptor Frédéric Auguste Bartholdi was designing the Statue of Liberty, he sought the advice of engineer Gustave Eiffel. Eiffel suggested that he make the statue’s arm thick and position it straight above the figure’s head. _____ Bartholdi decided to slim the arm and tilt it out at an angle.

Which choice completes the text with the most logical transition?

- A. Additionally,
- B. Instead,
- C. Thus,
- D. For example,

ID: 9d4f331c Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Instead" logically signals that the information in this sentence—that Bartholdi decided to slim and tilt out the arm of the Statue of Liberty—contrasts with Eiffel’s design suggestions for the statue.

Choice A is incorrect because "additionally" illogically suggests that the information in this sentence is merely an additional fact related to Eiffel’s design suggestions in the previous sentence. Instead, it contrasts with those suggestions. Choice C is incorrect because "thus" illogically signals that the information that follows is a result of Eiffel’s design suggestions in the previous sentence. Instead, it contrasts with those suggestions. Choice D is incorrect because "for example" illogically signals that the information about Bartholdi’s design decisions in this sentence exemplifies Eiffel’s design suggestions in the previous sentence. Instead, it contrasts with those suggestions.

SAT	Reading and Writing	Expression of Ideas	Transitions	

ID: e0bd4f8a

PSAT2 RW 2.24

In 1942, the 1,500-mile Alaska Highway was constructed in under nine months, largely due to the skilled work of nearly 4,000 African American soldiers from US Army engineering regiments. The soldiers’ contribution was overlooked for decades. _____ in 2017, lawmakers declared October 25 a day of recognition—“Alaska Highway Day”—for the troops who helped build this critical roadway.

Which choice completes the text with the most logical transition?

- A. Lastly,
- B. Then,
- C. Similarly,
- D. For example,

ID: e0bd4f8a Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Then" logically signals that the event described in this sentence—lawmakers’ 2017 declaration of Alaska Highway Day—is part of a chronological sequence of events, occurring after the decades-long period in which the soldiers’ contribution was overlooked.

Choice A is incorrect because "lastly" illogically signals that this sentence presents the last of a series of points or reasons. Instead, it describes a later event occurring in a chronological sequence of events. Choice C is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous information about the soldiers’ contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period. Choice D is incorrect because "for example" illogically signals that this sentence provides an example illustrating the previous information about the soldiers’ contribution being overlooked for decades. Instead, it describes an event occurring after that decades-long period.

PSAT2 RW 2.25

While researching a topic, a student has taken the following notes:

Here I Have Returned is a sculpture by Egyptian American artist Sherin Guirguis. It is a large, curved strip of wood inspired by the shape of a sistrum. A sistrum is a curved musical instrument played by ancient Egyptian priestesses in ceremonies. Guirguis says that the sculpture symbolizes “women who have lifted and supported Egyptian society and culture.” Overall, Guirguis wants her works to “engage audiences in a dialogue about power, agency, and social transformation.”

The student wants to use a quotation from Guirguis to explain what the sculpture represents. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Guirguis, whose works include a sculpture that is a large, curved strip of wood, has explained that she wants her work to
- A. create a dialogue with audiences.
- Inspired by the sistrum played by Egyptian priestesses, *Here I Have Returned* symbolizes “women who have lifted and
- B. supported Egyptian society and culture,” according to Guirguis.
- According to Guirguis, the curved strip of wood used in *Here I Have Returned* was inspired by the sistrum, a musical
- C. instrument played by ancient Egyptian priestesses in ceremonies.
- Guirguis, the sculptor of *Here I Have Returned*, wants her works to “engage audiences in a dialogue about power, agency,
- D. and social transformation.”

ID: 570dd854 Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence uses a quotation from Guirguis to explain what *Here I Have Returned* represents, noting that Guirguis said the sculpture symbolizes "women who have lifted and supported Egyptian society and culture."

Choice A is incorrect. The sentence explains what Guirguis says she wants her work to achieve and provides an example of her work; it doesn't use a quotation to explain what the sculpture represents. Choice C is incorrect. The sentence mentions the instrument whose shape inspired the sculpture but doesn't use a quotation to explain what the sculpture represents. Choice D is incorrect. While the sentence does use a quotation from Guirguis, the quotation explains what she hopes her works in general achieve, not what the sculpture in particular represents.

Question Difficulty: Medium

Question ID 9336f63b

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	■ ■ ■

ID: 9336f63b

PSAT2 RW 2.26

While researching a topic, a student has taken the following notes:

- A small number of US Navy sailors of Filipino descent served during the US Civil War (1861–1865).
- Stephen Amos was born in the Philippines around 1830. He enlisted in the US Navy in November 1863.
- Raphael Ignases was born in the Philippines around 1834. He enlisted in the US Navy in July 1861.

The student wants to emphasize the historical significance of Stephen Amos’s enlistment date. Which choice most effectively uses relevant information from the notes to accomplish this goal?

Both Stephen Amos and Raphael Ignases were US Navy sailors of Filipino descent, but Amos enlisted in the Navy in
A. 1863, two years later than Ignases.

Stephen Amos was a US Navy sailor of Filipino descent, along with Raphael Ignases, who was born in the Philippines
B. around 1834.

Stephen Amos enlisted in the US Navy in 1863, making him one of the few sailors of Filipino descent to serve in the US
C. Civil War (1861–1865).

When Stephen Amos enlisted in the US Navy in November 1863, he joined sailors such as Raphael Ignases, who had
D. been born in the Philippines around 1834.

ID: 9336f63b Answer

Correct Answer: C

Rationale

Choice C is the best answer. Noting the time frame of the US Civil War and the fact that Amos enlisted during this time frame, the sentence emphasizes that Amos’s enlistment date places him among the historically significant group of US Navy sailors of Filipino descent who served during the Civil War.

Choice A is incorrect. The sentence identifies Amos and Ignases and notes that Amos’s enlistment date was later than Ignases’s; the sentence doesn’t explain the historical significance of the date. Choice B is incorrect. The sentence identifies Amos and Ignases as US Navy sailors of Filipino descent, noting Ignases’s birth year; the sentence doesn’t provide Amos’s enlistment date or its historical significance. Choice D is incorrect. The sentence provides Amos’s enlistment date and mentions that he served alongside a sailor of Filipino descent; it doesn’t explain the historical significance of the date.

Question Difficulty: Hard

Question ID de01cccf

Assessment	Test	Domain	Skill	Difficulty
SAT	Reading and Writing	Expression of Ideas	Rhetorical Synthesis	■ ■ ■

ID: de01cccf

PSAT2 RW 2.27

While researching a topic, a student has taken the following notes:

- The background colors of US and UK road signs are used to denote each sign’s purpose.
- Directional signs are a type of sign containing information such as route names, distance to a destination, etc.
- Highways, major roadways, and minor roadways in the US generally use green for directional signs.
- Highways in the UK generally use blue for directional signs.
- Major roadways in the UK generally use green for directional signs.

The student wants to contrast how green backgrounds are used in US and UK road signs. Which choice most effectively uses relevant information from the notes to accomplish this goal?

- Blue backgrounds are generally used on directional highway signs in the UK, in contrast to the green highway signs used A. in the US.
- In the US, green signs indicate directional information on both highways and major roadways, but in the UK, directional B. signs of this color generally appear only on major roadways.
- Green road signs are used in both the US and UK to denote directional information on major roadways, like distance to a C. destination or route names.
- D. Both the UK and the US use directional signs, which include information on route names and distance to a destination.

ID: de01cccf Answer

Correct Answer: B

Rationale

Choice B is the best answer. The sentence contrasts how green backgrounds are used in US and UK road signs, noting that the US uses them for both highways and major roadways while the UK uses them only for major roadways.

Choice A is incorrect. While the sentence does contrast US and UK road signs, the contrast focuses on the use of blue versus green backgrounds rather than on the use of green backgrounds specifically. Choice C is incorrect. The sentence indicates a similarity between the uses of green road signs in the US and the UK rather than contrasting them. Choice D is incorrect. The sentence indicates a similarity between road signs in the US and those in the UK; it doesn’t contrast how green backgrounds are used in each country’s signs.

Question Difficulty: Hard
